to GSoC and other Open-Source
programs

GOOGLE SUMMER OF CODE

Google Summer of Code is a global program focused on bringing more student developers into open source software development.

Students work on a three-month programming project with an open-source organization during their break from university.

This is a Google-sponsored program and students are paid a sum upto 3000 USD after their completion of the program.

What is GSoC ?

PERKS OF GETTING SELECTED IN GSoC
